

Innoseal® Sealer Operation

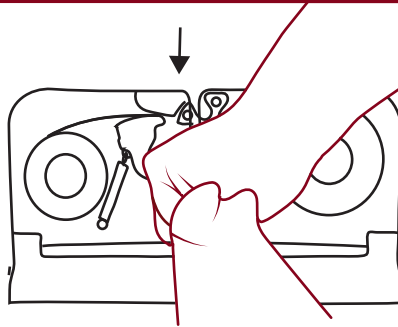

Step 1: Twist the Neck of the Bag

By turning your hands in opposite direction, you make a twist; forming the neck of the bag.

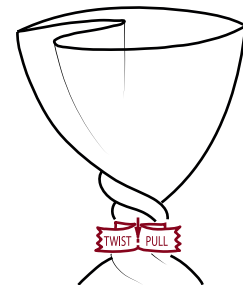

Step 2: Apply Closure

Place the neck over the Innoseal® Sealer's slot. Using both hands, firmly push bag through the slot, towards the opening.

Step 3: Finishing Seal

Push the bag all the way down through the system, until seal has locked on. Release bag with one hand and pull out of the opening. Do not pull back up!

Step 4: Seal On

Bag is now sealed!
Enjoy your easy to open, tamper evident, reusable and airtight seal.

Twist and pull to open!
