

Open and Close Innoseal[®] Closure

Step 1: Twist and Pull

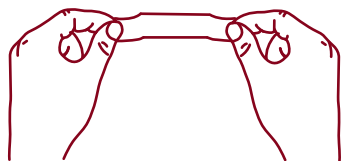

Grab the Closure by placing your index fingers and thumbs on both tabs. By twisting your hands in opposite direction, you will tear the Paper, enabling your closure to be opened.

Step 2: Open the Seal

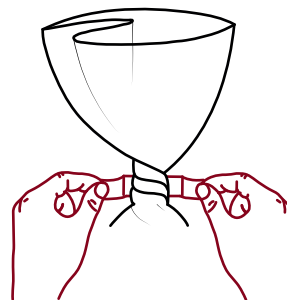

Pull the ends of the Seal away from each other, and remove it from the bag.

Open bag!

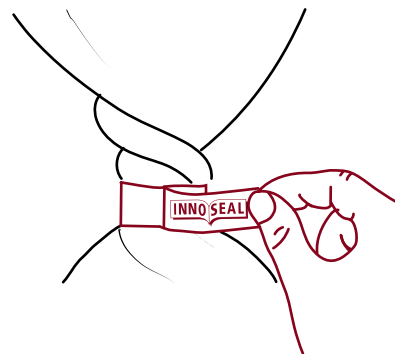

Step 3: To Reseal

To reclose the bag, position the Closure with the sticky side up.

Step 4: Twist the Neck of the Bag

Make a neck in the bag, by twisting it. Place the sticky part of the Closure in the middle of the neck.

Step 6: Pinch the Ends Together

Bring the Paper sides of the Closure together and pinch from the bag outwards. The Tape will stick together.

Your seal is reclosed!
